

# Kyokuto Kaihatsu Group Environmental Policy

Kyokuto Kaihatsu Group supports the Paris Agreement, a framework aimed at keeping the global average temperature rise well below 2°C compared to pre-industrial levels while striving to limit it to 1.5°C. We promote, voluntarily and energetically, in all of our business situations, activities aimed at passing on a better global environment to the future generations.

1. We operate the PDCA cycle and strive to continuously improve our operations.
2. We comply with environmental laws and regulations, and give proper consideration to pollution prevention, contamination avoidance, and energy conservation.
3. We aim at development of technologies conducive to global environment conservation.
4. We strive to reduce environmental impacts throughout entire product lifecycles.
5. We strive to reduce greenhouse gas emissions through our production activities, products, and services.
6. We promote reduction of wastes, and strive to recycle generated wastes.
7. We promote the efficient use of water and strive to conserve water resources.
8. We properly manage chemical substances and reduce their impact on people and the environment.
9. We strive to maintain a sustainable global environment in consideration of biodiversity.
10. We collaborate with all stakeholders involved with our group and strive to solve environmental issues.
